## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 21 is indefinite because it is not clear what applicant intends to say with “an open passage absent structure”.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Ham et al (US 5,456,667).

Ham discloses a catheter 11 made of a monolithic memory metal tube of a single-piece wall construction made of nickel titanium alloy (programmed for an effect of memory effect and super elasticity (col. 6 line 50 – col. 7 line 14, and col. 8 lines 65-67), and consisting of a monolithic side-wall having two non-slotted, solid sections and a slotted section therebetween and monolithic therewith having a plurality of slots formed therein (figs 1-7) defining a retrieval basket 12 wherein the slotted retrieval basket

section is capable of expansion and contraction to surrounding contact, capture and retrieve at least one particle (see Fig. 6-6a).

### ***Allowable Subject Matter***

Claim 7 is allowable over the prior art of record.

### ***Allowable Subject Matter***

Claim 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

### ***Response to Arguments***

In response to applicant's argument about Ham's device, please see the rejection above.
